### Opportunità di collaborazione dalla rete Enterprise Europe Network

Agosto 2022

#### Ricerche Partner per Bandi Europei

**Fonte: ENTERPRISE EUROPE NETWORK**

|                      |  |
|----------------------|--|
| <b>1) Title</b>      | <b>A consortium of 8 non-academic organizations aims to develop an Augmented Digital Freight Forwarder Platform under HORIZON-CL5-2022-D6-02-07: New concepts and approaches for resilient freight transport and logistics networks against disruptive events</b>  |
| POD Reference        | RDRFR20220629006   |
| Summary              | A consortium of 8 non-academic organizations (UK, Austria, Italy, France, Germany, Portugal, The Netherlands) aims to develop an Augmented Digital Freight Forwarder Platform for supporting the decision-making of the international transportation and logistics companies with a multi-modal network. |
| Deadline for EOI     | 19/08/2022   |
| Deadline of the Call | 05/09/2022   |

|                      |   |
|----------------------|---|
| <b>2) Title</b>      | <b>EUROSTARS Project – Seeking partner for developing an oncopediatric diagnostic kit combining omics technologies</b>  |
| POD Reference        | RDRES20220727012  |
| Summary              | Spanish company is searching for a partner to complete a project for Eurostars call. The company is working in advanced genetics solutions to improve medical diagnoses of specific diseases. They are searching for another company to co-develop a new oncopediatric diagnostic kit based on NGS panel. |
| Deadline for EOI     | 31/08/2022  |
| Deadline of the Call | 15/09/2022  |

|                 |   |
|-----------------|---|
| <b>3) Title</b> | <b>A high-added value green company is looking for partners for HORIZON-MISS-2022-SOIL-01-10: Innovations for soil improvement from bio-waste</b> |
| POD Reference   | RDRSK20220725004  |
| Summary         | A high-added value green company established in 2016 in Slovakia is searching for partners for  |

|                      |  |
|----------------------|--|
|                      | Horizon Europe call. A company is focused on environmentally friendly solutions in areas of waste treatment, bioprocesses, biofuels, soil regeneration, reconstruction of unused brownfields and recyclable packaging, etc. They are currently looking for partners for HORIZON-MISS-2022-SOIL-01-10: Innovations for soil improvement from bio-waste. |
| Deadline for EOI     | 10/09/2022   |
| Deadline of the Call | 27/09/2022   |

|                      |   |
|----------------------|---|
| <b>4) Title</b>      | <b>Eurostars proposal from Greek SME seeking partners (university or company) for smart technical textiles project idea</b>   |
| POD Reference        | RDRGR20220721014  |
| Summary              | A Greek smart textiles and clothing design company is putting together a proposal for the Eurostars funding programme in order to develop hypoallergic natural fabric for sleep and wellness wear. The Greek SME is looking for partners both from academia and the business arena to contribute their scientific and research expertise and/or production know-how and capacity to further develop and finalise this idea ready for commercialisation on global markets. |
| Deadline for EOI     | 01/09/2022  |
| Deadline of the Call | 15/09/2022  |

|                      |   |
|----------------------|---|
| <b>5) Title</b>      | <b>A Bulgarian Start-up is looking for expertise for an EIC Accelerator project in the field of air quality dispersion modelling</b>  |
| POD Reference        | RDRBG20220620006  |
| Summary              | A Bulgarian Start-up company that develops environmental technology solutions is preparing a proposal for the EIC Accelerator. As part of the concepts, an external expertise is required to fulfil the technology gap of the team related to the dispersion modelling of air quality data in near real-time. |
| Deadline for EOI     | 28/08/2022  |
| Deadline of the Call | 04/10/2022  |

|                      |   |
|----------------------|---|
| <b>6) Title</b>      | <b>LIFE-2022-SAP-NAT-NATURE: Looking for partners with experience in pollinators conservation and partners with experience in building computational models using neural networks</b>   |
| POD Reference        | RDRES20220719012  |
| Summary              | A Spanish company specialised in agrotechnology solutions is preparing a proposal for LIFE 2022 - Nature and Biodiversity call aimed at enhancing the mountain habitat of endangered birds in the Mediterranean Forest. The consortium already has qualified partners in Spain, Italy and Greece and seeks to complement some aspects of the proposal with partners experienced in pollinators and in computational models. |
| Deadline for EOI     | 15/09/2022  |
| Deadline of the Call | 04/10/2022  |

|                 |   |
|-----------------|---|
| <b>7) Title</b> | <b>Belgian SME seeks to join project consortia for "HORIZON-MISS-2022-CANCER-01-04 : Towards the creation of a European Cancer Patient Digital Centre" call by 7 September 2022</b> |
| POD Reference   | RDRBE20220718011  |

|                      |   |
|----------------------|---|
| Summary              | A Belgian SME providing IT tools to enable patient education, therapeutic compliance, patient reported outcomes and experiences is seeking partners to join the call "HORIZON-MISS-2022-CANCER-01-04 : Towards the creation of a European Cancer Patient Digital Centre" as part of the Horizon Europe Framework Programme (HORIZON). |
| Deadline for EOI     | 20/08/2022  |
| Deadline of the Call | 07/09/2022  |

## Ricerche di Partner Tecnologici e Commerciali

Presentiamo di seguito alcune opportunità di collaborazione internazionale pubblicate nella banca dati di Enterprise Europe Network.

### Richieste e offerte di tecnologie

|                 |   |
|-----------------|---|
| <b>1) Title</b> | <b>Austrian research institute looking for partners in the field of neurorehabilitation using artificial environments like virtual reality, augmented reality and robots</b>  |
| POD Reference   | TRAT20220728005   |
| Summary         | An Austrian research centre with expertise in stroke and vascular ageing neurorehabilitation - using virtual/augmented reality, robots and neuroimaging techniques - was recently created. The centre uses innovative approaches for an adapted and efficient improvement of patients' quality of life via neurocomputational modelling. The centre has connections to clinics and is now looking for private and public partners to collaborate on new technologies under a research and/or technical agreement. |

|                 |   |
|-----------------|---|
| <b>2) Title</b> | <b>Innovative German nail cosmetic start-up seeks producer of individual UV-LED flashlight lamps</b>  |
| POD Reference   | TRDE20220726002   |
| Summary         | A small German start-up company seeks a partner to manufacture new UV LED lamps to cure nail polish according to the German company's own design. The lamps will be more compact and sustainable than conventional products. The partner should already contribute to finalising the design. A manufacturing agreement should be concluded. |

|                 |   |
|-----------------|---|
| <b>3) Title</b> | <b>Research and strategy company from Latvia seeks technological solutions for eye tracking and emotion mapping solution with data analysis and visualization functionality for integration in online research activities and sessions.</b>   |
| POD Reference   | TRLV20220714006   |
| Summary         | Latvian research, strategy and marketing project company is looking for eye tracking and emotion mapping solution with data analysis and visualization functionality for integration in online research activities and sessions. The company is looking for partners under technical cooperation agreement to develop and integrate eye tracking and emotion mapping solution with data analysis and visualization functionality for online research activities and recorded research sessions. |

|                 |   |
|-----------------|---|
| <b>4) Title</b> | <b>A globally active German developer and manufacturer in the field of microfluidics, is looking for collaboration with startup companies in order to develop new applications and partnerships in biotech and life science applications.</b>   |
| POD Reference   | TRDE20220708006   |
| Summary         | The German company, producer of micropumps and microfluidics systems, wants to find new applications for their products and microcomponents and to develop new products in cooperation with innovative startups to increase available market potential for both partners. The company is looking for a technical cooperation agreement with startups that can contribute to this objective. |

|                 |  |
|-----------------|--|
| <b>5) Title</b> | <b>Multifunctional use of single lined pitches for sports field</b>  |
| POD Reference   | TRNL20220705013  |
| Summary         | A royal dutch company active in several different sport activities is looking for an innovation to create flexible and changeable sport facilities on sports fields. In concreto their request is: How can multifunctional outdoor pitches be provided in an instant with the lines that are requested for the sport that uses the pitch at that moment. |

|                 |   |
|-----------------|---|
| <b>6) Title</b> | <b>A German logistics specialist with global business operations seeks startup companies to create a holistic decision-making map tool to monitor supply chains, cooperation partners and freight routes globally</b>   |
| POD Reference   | TRDE20220708008   |
| Summary         | A German family-owned logistics specialist with global business operations seeks startup companies to create a holistic decision-making map tool to monitor supply chains, cooperation partners and freight routes globally. The company seeks start-ups for a technical cooperation agreement in the frame of a challenge. |

|                 |  |
|-----------------|--|
| <b>7) Title</b> | <b>Joint development of the worldwide first digital learning platform for forklift and crane user license trainings with a focus on enabling the validation of driver licenses within neighbouring countries of Austria.</b>   |
| POD Reference   | TOAT20220718004  |
| Summary         | Crane and forklift driving licenses are still based 100% on physical attendance and licenses are only valid within the country where the license was issued. A public funded, Austrian consortium develops the first digital training platform to overcome the shortage of licensed operators, to enable a multi national valid driving licence and to increase the quality and flexibility of education. Development partners are needed to ensure multi national interoperability (R&D cooperation). |

|                 |   |
|-----------------|---|
| <b>8) Title</b> | <b>Environmental organisms' community analysis through massive sequencing technologies is offered to waste, water and polluted soil management organisations</b>  |
| POD Reference   | TOES20220727004   |
| Summary         | SME devoted to environmental biomolecular analysis, offers massive sequencing technologies to detect communities of prokaryotes and/or eukaryotes in environmental samples. The company seeks partners interested in either adopting the technology for their environmental services or integrating it into their portfolio as an added-value feature. A commercial agreement with technical assistance is envisaged. |

|                 |   |
|-----------------|---|
| <b>9) Title</b> | <b>A Ukrainian company offers a reactive energy compensation system</b> |
| POD Reference   | TOUA20220725011   |

|         |   |
|---------|---|
| Summary | A Ukrainian company offers a modern electronic switching system for reactive energy compensation. This system works without a transient process, it is used to compensate for the reactive power of any loads, the time for complete data collection is 3-4 seconds. The benefits of this offer are energy savings, reduced operating costs and a competitive price. Type of cooperation: commercial agreement with technical assistance. |
|---------|---|

|                  |   |
|------------------|---|
| <b>10) Title</b> | <b>Faster MRI (Magnetic resonance imaging) examinations</b>   |
| POD Reference    | TODE20220727015   |
| Summary          | A German university developed a method that shortens the examination time during a magnetic resonance imaging (MRI) scan. This method generates synthetic STIR (Short-Tau Inversion Recovery) images. The university offers interested companies a license agreement as well as a technology cooperation agreement. |

|                  |   |
|------------------|---|
| <b>11) Title</b> | <b>Primer design and probe to detect specific organisms and genes using qPCR and PCR</b>  |
| POD Reference    | TOES20220727005   |
| Summary          | A Basque SME devoted to environmental biomolecular analysis, offers primer design and probe capabilities to detect specific organisms and genes using qPCR and PCR. The company seeks partners interested in either adopting the technology for their environmental services or integrating it into their portfolio as an added-value feature. A commercial agreement with technical assistance is envisaged. |

|                  |   |
|------------------|---|
| <b>12) Title</b> | <b>Microfluidic measurement system detecting ionizing radiation</b>   |
| POD Reference    | TODE20220729005   |
| Summary          | A German university developed a measuring device that detects radioactive isotopes emitting alpha radiation in liquid samples. This type of device can be used primarily to examine waste water and groundwater. The university offers a license agreement as well as a technology cooperation agreement. |

### Richieste e offerte di collaborazioni commerciali

|                 |   |
|-----------------|---|
| <b>1) Title</b> | <b>Slovenian manufacturer and reseller of bags seeks suppliers of ZIP lock bags.</b>  |
| POD Reference   | BRSI20220726004   |
| Summary         | A Slovenian company specializing in the manufacturing and distribution of bags is looking for suppliers of PE-LD ZIP lock grip seal plastic bags. |

|                 |  |
|-----------------|--|
| <b>2) Title</b> | <b>A Greek construction company is looking for permanent concrete safety barriers</b>  |
| POD Reference   | BRGR20220719019  |
| Summary         | A Greek construction company, operating since 1982, is looking for permanent concrete safety barriers, supporting passive road safety and any other road applications. CE certification and EN 1317 testing are required. The company is Interested in supply or license partnering. |

|                 |   |
|-----------------|---|
| <b>3) Title</b> | <b>A Dutch company is looking for European partners in cabling solutions (fiberglass, copper, coax) to establish an international purchasing organisation</b> |
| POD Reference   | BRNL20220713011   |

|         |   |
|---------|---|
| Summary | The company is a supplier of a wide range of well known brands of cabling solutions in fibreglass, copper and coax. Their clients are active in the LAN, data centers and infrastructural projects for wired data transfer. The company is broadening their scope on the EU market to grow internationally. They would like to supply, in cooperation with partners in Europe, more international based clients. The company looks partnerships in Europe with foreign cabling solutions companies. |
|---------|---|

|                 |  |
|-----------------|--|
| <b>4) Title</b> | <b>Looking for packaging solutions for take away food made in Europe (noodle box, salad box, burger bags)</b>  |
| POD Reference   | BRES20220713006  |
| Summary         | We want to find producer in Europe that can offer large quantities of packing solutions for take away: noodles box, kraft paper box, paper with PE (Polyethylene) for hamburgers, kraft bags with PE for starters, and so on |

|                 |  |
|-----------------|--|
| <b>5) Title</b> | <b>A Ukrainian producer of children's and women's clothing is looking for a partner to start a manufacturing agreement, subcontracting or joint venture agreement</b>  |
| POD Reference   | BOUA20220723002  |
| Summary         | A Ukrainian company, focused on high-quality textile products for children and women, is looking for new international partners to act as a manufacturer, subcontractor or to cooperate under joint venture agreement. The company is looking to provide full service clothing manufacturing and seeks partners from all over the world. |

|                 |  |
|-----------------|--|
| <b>6) Title</b> | <b>Slovenian company, an experienced developer and manufacturer of electronic testing &amp; measuring systems, power supplies and other high-end electronic solutions, is looking for a commercial agreement.</b>  |
| POD Reference   | BOSI20220801036  |
| Summary         | A Slovenian company is offering development and manufacturing of testing and measuring electronic systems for testing single and three-phase portable appliances, machines, welding machines, low voltage switchgear assemblies, EV charging stations, electrical installations, PRCDs, cables, cable extensions etc. The company would like to expand its portfolio of clients and it is looking for new business partners through commercial agreements among enterprises from electronics and other industries. |

**Chi fosse interessato a richiedere:**
